

Line 'Em Up

Description

Description

Group competes in a team-building activity involving different ways to line up.

Supplies

- No supplies needed

How to Play

1. Split group into teams. Each team needs at least 5 people in it.
2. Explain there will be different rounds where teams will line up in a particular way the fastest.
3. Announce the line challenge and have each team work together to quickly complete the challenge.
4. Have teams show they have completed a challenge by standing in the correct position and putting their hands in the air.
5. Continue playing until time is up.
6. Line challenges:
 - Shortest to tallest
 - Largest shoe to the smallest shoe without talking
 - In a pattern (Back to back then front to front, back to back, then front to front, and so on)
 - Alphabetical order using the first letter in their name
 - Birthdays from January to December

Activity Prompts for Reflection

- What strength did you bring to your team during these challenges?
- What is one thing you did or said to encourage your teammates during this activity?
- How did you make sure that everyone was included in these different challenges?
- How were you a good team player during this activity?

Other Ways to Play

- Make teams smaller so students have fewer people to line up with.
- Encourage students to do these different challenges silently.
- Mix up the teams for each of the challenges to have groups practice working with different people on a team.

Additional Notes

- The larger the teams, the more difficult these challenges will be.
- Use the [SEL Activity Prompts](#) to tie other SEL competencies to this activity.
